I. INTRODUCTION

A. This course provides the student with the basic principles of electrical systems of diesel powered equipment with emphasis on starter, alternators and batteries.

B. Basic Electrical Systems (DEMR 1405) is a required course for the completion of a two year Associate of Applied Science degree in Diesel Engine Mechanic and Repairer or a Level I or Level II certificate of completion in the Diesel Technician Program.

C. This course is occupationally related and serves as a preparation for a career in the Diesel Service and Repair field.

D. Prerequisites: This course has a prerequisite or corequisite (A.A.S. Degree) of DEMR 1401 or consent of the Department Chair.

E. Alphanumeric coding used throughout this module book denotes integration of SCANS occupational competencies (C1, etc.) and Foundation skills (F1, etc.).

II. LEARNING OUTCOMES

Upon successful completion of this course, Basic Electrical Systems, the student will:

A. Describe the fundamentals of electricity. (C19)

B. Define Ohm’s Law and apply it to electrical circuits. (C19)

C. Test circuits. (C19)

D. Describe battery fundamentals. (C19)

E. Service and maintain vehicle batteries. (C20)

F. Perform industry acceptable wiring repairs. (C20)

G. Perform circuit analysis. (C20)

H. Identify electrical symbols. (C18)

I. Diagnose and repair truck and trailer lighting systems. (C20)

J. Test and repair instruments and gauges. (C20)
K. Test and repair electrical accessories. (C20)
L. Diagnose diesel charging systems. (C20)
M. Test and repair charging system components. (C20)
N. Diagnose diesel starting systems. (C20)
O. Test and repair starting system components. (C20)
P. Understand the operation of electronic components. (C19)
Q. Understand the basic operation of engine/vehicle sensors and on-board computers. (C19)
R. Use special tools. (C18)
S. Use tools and equipment. (C18)
T. Use service publications. (C18)
U. Use a computer. (C18)
V. Practice shop safety. (C19)
W. Assess skills and distribute work accordingly, evaluate performance and provide feedback. (C4)

III. INSTRUCTIONAL MATERIALS

A. Instructional materials for this course may be found at www.ctcd.edu/books
B. Supplemental Reading: As assigned by the instructor.
C. Audio-visual aids: See resource list at end of module book.
D. Other instructional material: as selected by the instructor.

IV. COURSE REQUIREMENTS

A. This course is being taught in a self-paced mode. It differs from the traditional college course in that you are allowed to work on your own and at your own speed within limitation. This course is 144 clock hours in length. The student may set his/her own schedule within the time frame the course is offered. You must attend class on the days and at the times you selected when you enrolled in the course.

You will have an assigned instructor. If at any time you do not understand a reading assignment, audiovisual presentation or lab work, ask your instructor for assistance. He is there for you!
This module book is designed to inform you of the sequence in which this course will be presented. You must follow this sequence and you must do what the module book says. It contains reading assignments, written assignments, audiovisual presentations and lab assignments that you must complete or watch. Written assignments will be turned in as directed by the instructor. Late assignments will not be accepted. You must let your instructor know when you are ready to do a learning activity, performance exam or take a scheduled exam.

B. The student must take notes when viewing DVDs, CDs, or videos. Exams may be taken from audio visual aids, reading and lab assignments. If instructor notes or handouts are given to you, you must study them; exams may be taken from these notes also.

C. The instructor may give written assignments or “pop” quizzes as he deems necessary.

D. Performance Exams:

Each student will clean all tools and equipment that they use and properly store them and clean their work area after the completion of each task.

All lab work will be completed on an individual basis. The student will receive a “pass” or “fail” on the task. Students who fail to complete a task correctly to industry standards must repeat the task. The instructor will date and initial each performance exam task as it is satisfactorily completed.

E. The following is part of the course requirements: Each student will assist in lab clean-up at the close of the evening classes and will assist in unloading and storing supply shipments. Failure to do so will result in a failure to complete all course requirements and the student could receive an “F” or “N” for the course.

F. There will be eleven (11) written examinations in this course (10 module/unit exams and an exit exam). Written exams must be completed before taking the performance exam for each module. The exit exam is a comprehensive exam that covers the entire course. Certificate students must score 70% on the exit exam. Certificate students will be allowed to take the exit exam a maximum of three (3) times. Failure to achieve a 70% score on the exit exam in three (3) tries will result in an "N" for the course and the student must retake the course.

G. The student must complete the written assignments to receive a grade. Written assignments for each unit will be turned into the instructor prior to starting performance exams for that module.

H. If you have special needs because of learning disabilities or other kinds of disabilities, please feel free to discuss this with the instructor. The instructor will attempt to meet your needs with the assistance of counselors, tutors (Project Mainstream), and the assistance of the Disabilities Services Office.
Program/course integrity will not be sacrificed. Students must meet all course requirements.
GRADING

Students will be graded using the standard Skills Center "Pass-Fail" system used for self-paced programs. To satisfactorily complete the written exams, the student must score 80% on tests (except the exit exam, 70%). Students who fail to make the 80% on any exam (except the exit exam) must retake the exam. The current test re-take policy will apply to all certificate students. The student must satisfactory complete all written and performance exams to receive a passing grade (“P”).

V. NOTES AND ADDITIONAL INSTRUCTIONS FROM THE COURSE INSTRUCTOR

A. Course Withdrawal: It is the student’s responsibility to officially withdraw from a course if circumstances prevent attendance. Any student who desires to, or must, officially withdraw from a course after the first scheduled class meeting must file a Central Texas College Application for Withdrawal (CTC Form 59). The withdrawal form must be signed by the student.

CTC Form 59 will be accepted at any time prior to Friday of the 12th week of classes during the 16-week fall and spring semesters. The deadline for sessions of other lengths is:

10-week session  
Friday of the 8th week
8-week session  
Friday of the 6th week
5-week session  
Friday of the 4th week

The equivalent date (75% of the semester) will be used for sessions of other lengths. The specific last day to withdraw is published each semester in the Schedule Bulletin.

A student who officially withdraws will be awarded the grade of “W” provided the student’s attendance and academic performance are satisfactory at the time of official withdrawal. Students must file a withdrawal application with the College before they may be considered for withdrawal.

A student may not withdraw from a class for which the instructor has previously issued the student a grade of “F”, “N”, “FN”, or “XN” for nonattendance.

B. Administrative Withdrawal: An administrative withdrawal may be initiated when the student fails to meet College attendance requirements. The instructor will assign the appropriate grade on CTC Form 59 for submission to the registrar.

C. Incomplete Grade: The College catalog states, “An incomplete grade may be given in those cases where the student has completed the majority of the coursework but, because of personal illness, death in the immediate family, or military orders, the student is unable to complete the requirements for a course.” Prior approval from the instructor is required before the grade of “IP” for Incomplete is recorded. A student who merely fails to show for the final
examination will receive a zero for the final and an “F” for the course.
D. **Cellular Phones and Beepers:** Cellular phones and beepers will be turned off while the student is in the classroom or laboratory.

E. **American’s With Disabilities Act (ADA):** Disability Support Services provide services to students who have appropriate documentation of a disability. Students requiring accommodations for class are responsible for contacting the Office of Disability Support Services (DSS) located on the central campus. This service is available to all students, regardless of location. Explore the website at [www.ctcd.edu/disability-support](http://www.ctcd.edu/disability-support) for further information. Reasonable accommodations will be given in accordance with the federal and state laws through the DSS office.

F. **Instructor Discretion:** The instructor reserves the right of final decision in course requirements.

G. **Civility:** Individuals are expected to be cognizant of what a constructive educational experience is and respectful of those participating in a learning environment. Failure to do so can result in disciplinary action up to and including expulsion.

H. Absence from the class may be unavoidable in some situations. These include illness, military/civilian job requirements, or a death in the immediate family. Documentation is required in the case of excused absences for job requirements. Excuses will be on company letterhead stationary signed by the immediate supervisor stating the reason for the absence for civilian jobs. Excuses for military personnel must be signed by the 1st Sergeant or the Company Commander.

**NOTE:** This does not apply to VA, VA/Voc, or Financial Aid students. There are no excused absences for these students. Talk to your funding agency if you have questions.

Disability Support Services provides services to students who have appropriate documentation of a disability. Students requiring accommodations for class are responsible for contacting the Office of Disability Support Services (DSS) located on the central campus. This service is available to all students, regardless of location. Review the website at [www.ctcd.edu/disability-support](http://www.ctcd.edu/disability-support) for further information. Reasonable accommodations will be given in accordance with the federal and state laws through the DSS office.
VI. **FIRST CLASS MEETING**

A. The instructor will introduce the course and show the student the textbook.

B. The instructor will verify the class roster/enrollment form:
   1. Call roll
   2. Have each student verify the spelling of his/her name and the social security number by initialing the class roster/enrollment form.
   
   **NOTE:** When a student’s name does not appear on the degree program class roster, they must bring it to the attention of the instructor and must present the instructor with CTC Form 29 (Add/Drop Slip) reflecting that he/she has properly registered for the course.

C. The instructor will have the student read and sign the course requirements sheet.

D. The instructor will discuss the following topics with the student:
   1. Course requirements, objectives and how the course works
   2. Policy letters
   3. Student handouts
   4. Lab sheet and lab work (Enabling tasks, Learning activities, Performance exams, competency profile)
   5. Exam, grading, reading and written assignments.
   6. Absences
   7. Shop/classroom cleanup-tools
   8. Dress code
   9. Parking
   10. Sign-in computer
   11. Course outline/fact sheets/student handouts
   12. Hazardous communications/MSDS information
   13. Shop safety
COURSE OUTLINE OR SEQUENCE

I. Module 1405-01: The Fundamentals of Electricity

A. Time:
   Certificate Students: 14 clock hours
   Degree Students: 2 weeks

B. Module Learning Outcomes: Upon completion of this module the student will:

   1. Describe the fundamentals of electricity. (C19)
   2. Define OHMS Law and apply it to electrical circuits (C19)
   3. Use a computer. (C8)

C. Read Factsheet 1405-01-01

D. Read Chapter 5, in Resource DEMR 1401-01. (Textbook)

E. See your instructor and ask him to explain any part of the reading assignment that you do not understand.

F. View Audio Visuals (See your instructor)

   1. View Resource DEMR 1405-01, Basic Electronics Theory and Troubleshooting Cummins Inc., Bulletin No. 3898967 (CD Rom) Note: Refer to Factsheet 1405-01-02 for instructions on the use of this resource.
      a. View Introduction; Safety concerns and practices only.
      b. View Basic Electrical Theory, all.
      c. View Basic Electrical Concepts, all.
      d. View Electrical Terms; all.
      e. View Electrical Circuits, Circuit Types only.

G. See your instructor and ask him to explain any part of the audio visuals that you do not understand.

H. See your instructor and ask him if there is any other information that should be viewed or read that pertains to this module.

I. Complete the learning activities listed below for this module. (See your Instructor)

   1. Complete Worksheet 1405-01-01
   2. Complete Worksheet 1405-01-02
   3. Complete Worksheet 1405-01-03

J. Review for Module 1405-01 Written Exam: Study all previous assignments in this module. See your instructor and ask him to explain any area that you do not
understand.

K. Module 1405-01 Written Exam: (See your instructor)

L. Critique Module 1405-01 Written Exam: (See your instructor)

M. Performance Exam Module 1405-01: Refer to the Laboratory Learning Activities (Lab Sheet) in this module book and complete the Performance exam. (See your instructor)

N. Certificate students must complete this module by the end of the 14th clock hour. Degree students must complete this module by the end of the 2nd week.

II. Module 1405-02: Introduction to Electronics

A. Time:
   Certificate Students: 5 clock hours
   Degree Students: 1 week

B. Module Learning Outcomes: Upon completion of this module the student will:
   1. Understand the operation of electronic components. (C19)

C. Read Chapter 6, pgs. 157 thru 167 in Resource DEMR 1401-01. (Textbook)

D. See your instructor and ask him to explain any part of the reading assignment that you do not understand.

E. View Audio-Visuals: (See your instructor)

F. See your instructor and ask him if there is any other material that should be viewed or read that pertains to this module.

G. Complete the learning activities below for this module.
   1. Complete Worksheet 1405-02-01

H. Review for Module 1405-02 Written Exam: Study all previous assignments in this module. See your instructor and ask him to explain any area that you do not understand.

I. Module 1405-02 Written Exam: (See your instructor)

J. Critique Module 1405-02 Written Exam: (See your instructor)
K. Performance Exam Module 1405-02: Refer to the Laboratory Learning Activities (Lab Sheet) in this module book and complete the Performance exam. (See your instructor)

L. Certificate students must complete this module by the end of the 19th clock hour. Degree students must complete this module by the end of the 3rd week.

III. Module 1405-03: Electrical System Test Equipment and System troubleshooting

A. Time:
Certificate Students: 12 Clock Hours
Degree Students: 1 week

B. Module Learning Outcomes: Upon completion of this module the student will:

1. Test circuits. (C20)
2. Use special tools. (C18)
3. Use a computer. (C8)
4. Practice shop safety. (C19)

C. Read Factsheet 1405-03-01 on “Open and Closed Circuits”.

D. Read Factsheet 1405-03-02 on “Troubleshooting opens and shorts”.

E. See your instructor and ask him to explain any part of the reading assignment that you do not understand.

F. View Audio-visuals: (See your instructor)

   a. Digital Multimeter Usage – All
   b. Electrical Circuits, Circuit Troubleshooting – All

G. See your instructor and ask him if there is any other information that should be viewed or read that pertains to this module.

H. Complete the learning activities listed below for this module.

1. Complete Worksheet 1405-03-01
2. Complete Worksheet 1405-03-02
I. Review for module 1405-03 Written Exam. Study all previous assignments in this module. See your instructor and ask him to explain any area that you do not understand.

J. Module 1405-03 Written Exam: (See your Instructor)

K. Critique Module 1405-03 Written Exam: (See your Instructor)

L. Performance Exam Module 1405-03: Refer to the Laboratory Learning Activities (Lab Sheet) in this module book and complete the Performance Exam for this module. (See your Instructor)

M. Certificate students must complete this module by the 31st clock hour. Degree students must complete this module by the end of the 4th week.

IV. Module 1405-04: Battery Maintenance and Troubleshooting

A. Time:
   Certificate Students: 13 clock hours
   Degree Students: 2 weeks

B. Module Learning Outcomes: Upon completion of this module the student will:
   1. Describe battery fundamentals (C19)
   2. Service and maintain vehicle batteries. (C20)
   3. Use special tools. (C18)
   4. Use tools and equipment. (C18)
   5. Use service publications. (C18)
   6. Practice shop safety. (C19)

C. Read Chapter 7 in Resource DEMR 1401-01. (Textbook)

D. Read Factsheet 1405-05-01 on “Series and Parallel Hook Up of Batteries”.

E. See your instructor and ask him to explain any part of the reading assignment that you did not understand.

F. View Audio Visuals: (See your instructor)
   1. View Resource DEMR 1405-03. Understanding and Troubleshooting Batteries, Interstate Batteries Inc. (Video)
   2. View Resource DEMR 1405-04, Acid Battery and Jump Starting, Long Island Productions No. 343 (Video)

G. See your instructor and ask him if there is any other information that should be
viewed or read that pertains to this module.

H. Complete the Learning Activities listed below for this module.

1. Complete Worksheet 1405-04-01.
2. Complete Worksheet 1405-04-02

I. Review for Module 1405-04 Written Exam: Study all previous assignments in this module. See your instructor and ask him to explain any area that you do not understand.

J. Module 1405-04 Written Exam: (See your Instructor)

K. Critique Module 1405-04 Written Exam: (See your Instructor)

L. Performance Exam Module 1405-04: Refer to the Laboratory Learning Activities (Lab Sheet) in this module book and complete the learning activities. (See your Instructor)

M. Certificate students must complete this module by the end of the 44th clock hour. Degree students must complete this module by the end of the 6th week.

V. Module 1405-05: Cab, Chassis and Trailer Wiring Systems

A. Time:
Certificate Students: 12 clock hours
Degree Students: 1 week

B. Module Learning Outcomes: Upon completion of this module the student will:

1. Perform industry acceptable wiring repairs. (C20)
2. Perform circuit analysis. (C20)
3. Identify electrical symbols. (C18)
4. Use tools and equipment. (C18)
5. Practice shop safety. (C19)

C. Read Factsheet 1405-05-01 on “Cab and Chassis Wiring Systems.”

D. Read Factsheet 1405-05-02 “Reading a Wiring Diagram”.

E. Read Factsheet 1405-05-03 on “Chassis Wiring Repair”.

F. Read Factsheet 1405-05-04 on “Semitrailer Lighting Systems”

G. Read Chapter 11, pgs. 329 thru 335, “Electrical Wiring, Connector and Terminal Repair” in Resource DEMR 1401-01. (Textbook)
H. See your Instructor and ask him to explain any part of the reading assignment that you do not understand.

I. View Audio Visuals: (See your Instructor)
      a. Electrical Diagram Usage – All.

J. See your Instructor and ask him if there is any other information that should be viewed or read that pertains to this module.

K. Complete the Learning Activities listed below for this module.
   1. Complete Worksheet 1405-05-01

L. Review for Module 1405-05 Written Exam: Study all previous assignments in this module. See your Instructor and ask him to explain any area that you do not understand.

M. Module 1405-05 Written Exam: (See your Instructor)

N. Critique Module 1405-05 Written Exam: (See your Instructor)

O. Performance Exam Module 1405-05: Refer to the Laboratory Learning activities (Lab Sheet) in this module book and complete the Performance exam for this module. (See your Instructor)

P. Certificate students must complete this module by the end of the 56th clock hour. Degree students must complete this module by the end of the 7th week.

VI. Module 1405-06: Truck and trailer Lighting Systems

A. Time
   Certificate Students: 12 clock hours
   Degree Students: 1 week

B. Module Learning Outcomes: Upon completion of this module the student will:
   1. Diagnose and repair truck and trailer lighting systems. (20)
   2. Test circuits. (C20)
   3. Use special tools. (C18)
   4. Practice shop safety. (C19)

C. Read Factsheet 1405-06-01 on Truck and Trailer lighting Systems.
D. Read Factsheet 1405-06-02 on Fault Tracing.
E. Read Chapter 10 pgs. 271 thru 279 in Resource DEMR 1401-01. (Textbook)
F. See your Instructor and ask him to explain any part of the reading assignment that you do not understand.
G. View Audio Visuals: (See your Instructor)

There are no Audio-Visuals for this module.
H. See your instructor and ask him if there is any other information that should be viewed or read that pertains to this module.
I. Complete the learning activities listed below for this module.
1. Complete Worksheet 1405-06-01.
J. Review for Module 1405-06 Written Exam: Study all previous assignments in this module. See your Instructor and ask him to explain any area that you do not understand.
K. Module 1405-06 Written Exam: (See your Instructor)
L. Critique Module 1405-06 Written Exam: (See your Instructor)
M. Performance exam Module 1405-06: (See your Instructor)
N. Certificate students must complete this module by the end of the 68th Clock Hour. Degree students must complete this module by the end of the 8th week.

VII. Module 1405-07: Instruments, Gauges and Accessories

A. Time:
Certificate Students: 16 Clock Hours
Degree Students: 2 Weeks

B. Module Learning Outcomes: Upon completion of this module the student will:
1. Test and repair instruments and gauges. (C20)
2. Test circuits. (C20)
3. Use special tools. (C18)
4. Use service publications. (C18)
5. Use tools and equipment. (C18)
6. Practice shop safety. (C19)
C. Read Chapter 10 pgs. 279 thru 289, (“Auxiliary Electrical Equipment”) in DEMR Resource 1401-01. (Textbook)

D. Read Factsheet 1405-07-01 on Engine Protection Systems.

E. Read Factsheet 1405-07-02 on Accessories.

F. See your Instructor and ask him to explain any part of the reading assignment that you do not understand.

G. View Audio Visuals: (See your Instructor)
   There are no Audio-Visuals for this module.

H. See your Instructor and ask him if there is any other information that should be viewed or read that pertains to this module.

I. Complete the learning activities listed below for this module.
   1. Complete Worksheet 1405-07-01.

J. Review for Module 1405-07 Written Exam: Study all previous assignments in this module. See your Instructor and ask him to explain any area that you do not understand.

K. Module 1405-07 Written Exam: (See your Instructor)

L. Critique Module 1405-07 Written Exam: (See your Instructor)

M. Performance Exam Module 1405-07: Refer to the Laboratory Learning activities (Lab sheet) in this module book and complete the Performance exam for this module. (See your Instructor)

N. Certificate students must complete this module by the end of the 84th clock hour. Degree students must complete this module by the end of the 10th week.

VIII. Module 1405-08: Charging System Fundamentals, Diagnosis and Repair

A. Time:
   Certificate Students: 24 Clock Hours
   Degree Students: 2 Weeks

B. Module Learning Outcomes: Upon completion of this module the student will:
   1. Diagnose diesel charging systems. (C20)
2. Test circuits. (C20)
3. Test and Repair Charging System Components (C8)
4. Use special tools. (C18)
5. Use tools and equipment. (C18)
6. Use a computer (C8)
7. Use service publications. (C8)
8. Practice shop safety. (C19)

C. Read Chapter 8 in Resource DEMR 1401-01. (Textbook)

D. Read Factsheet 1405-08-01 on Alternator Disassembly and Repair.

E. See you Instructor and ask him to explain any part of the reading assignment that you do not understand.

F. View Audio Visu: (See your Instructor)

1. View Resource DEMR 1405-08 Charging System Fundamentals, Heath Company, Benton Harbor, MI 49022 (Video)

G. See your Instructor and ask him if there is any other information that should be viewed or read that pertains to this module.

H. Complete the learning activities listed below for this module.

1. Complete Worksheet 1405-08-01
2. Complete Worksheet 1405-08-02
3. Complete Worksheet 1405-08-03
4. Complete Worksheet 1405-08-04

I. Refer to the Laboratory Learning Activities (Lab Sheet) in this module book and complete the Learning Activities for this module. (See your Instructor)

J. Review for Module 1405-08 Written Exam: Study all previous assignments in this module. See your Instructor and ask him to explain any area that you do not understand.

K. Module 1405-08 Written Exam: (See your Instructor)

L. Critique Module 1405-08 Written Exam: (See your Instructor)

M. Certificate students must complete this module by the end of the 108th clock hour. Degree students must complete this module by the end of the 12th week.

IX. Module 1405-09: Starting System Fundamentals, Diagnosis and Repair
A. Time:
Certificate Students: 24 Clock Hours
Degree Student: 2 Weeks

B. Module Learning Outcomes: Upon completion of this module the student will:

1. Diagnose diesel starting systems. (C20)
2. Test circuits. (C20)
3. Test and repair starting system components. (C20)
4. Use special tools. (C18)
5. Use tools and equipment. (C18)
6. Use service publications. (C18)
7. Use a computer. (C8)
8. Practice shop safety. (C19)

C. Read Chapter 9 in Resource DEMR 1401-01. (Textbook)

D. See your instructor and ask him to explain any part of the reading assignment that you do not understand.

E. View Audio Visuals: (See your Instructor)

1. View Resource DEMR 1405-10, Starting Motors, Components and Starting Systems, Heath Company, Benton Harbor, MI 49022 (Video)

F. See your Instructor and ask him if there is any other information that should be viewed or read that pertains to this module.

G. Complete the learning activities listed below for this module.

1. Complete Worksheet 1405-09-01.
2. Complete Worksheet 1405-09-02.
3. Complete Worksheet 1405-09-03

H. Review for Module 1405-09 Written Exam: Study all previous assignments in this module. See your instructor and ask him to explain any area that you do not understand.

I. Module 1405-09 Written Exam: (See your Instructor)

J. Critique Module 1405-09 Written Exam: (See your Instructor)

K. Performance Exam Module 1405-09: Refer to the Laboratory Learning Activities (Lab sheet) in this module book and complete the Performance exam for this module. (See your Instructor)
L. Certificate students must complete this module by the end of the 132nd clock hour. Degree students must complete this module by the end of the 14th week.

X. Module 1405-10: Engine-Vehicle Sensors and Computers

A. Time:
   Certificate Students: 10 Clock Hours
   Degree Students: 1 Week

B. Module Learning Outcomes: Upon completion of this module the student will:

   1. Understand the basic operation of engine/vehicle sensors and on-board computers.

C. Read Factsheet 1405-10-01 on Engine/Vehicle Sensors and Computers.

D. Read Chapter 6 pgs. 170 thru 183. ("Gates and Truth Table’s") in Resource DEMR 1401-01. (Textbook)

E. See your Instructor and ask him to explain any part of the reading assignment that you do not understand.

F. View Audio Visuals: (See your Instructor)

   1. View Resource DEMR 1405-13, Wiring of the Future-Multiplexing

G. See your Instructor and ask him if there is any other material that should be viewed or read that pertains to this module.
H. Complete the learning activities listed below for this module.
   1. Complete Worksheet 1405-10-01.

I. Review for Module 1405-10, Written Exam: Study all previous assignments in this module. See your Instructor and ask him to explain any area that you do not understand.

J. Module 1405-10 Written Exam: (See your Instructor)

K. Critique Module 1405-10 Written Exam: (See your Instructor)

L. Performance Exam Module 1405-10: Refer to the Laboratory Learning Activities (Lab Sheet) in this module book and complete the Performance Exam for this module. (See your Instructor)

M. Certificate students must complete this module by the end of the 142nd clock hour. Degree students must complete this module by the end of the 15th week.

XII. Module 1405-11: Exit Exam

A. Time:
   Certificate Students: 2 Clock Hours
   Degree Students: 1 Week

B. Module Learning Outcomes: Upon completion of this module the student will:
   1. Complete the Exit Exam.

C. Review all previous assignments in this module.

D. See your Instructor and ask him to explain anything that you do not understand about Basic Electrical Systems.

E. Module 1405-11 Written (Exit) Exam: (See your Instructor)

F. Critique Module 1405-11 (Exit) Exam: (See your Instructor)

G. End of course critique and enrollment in the next course in the program. (See your Instructor)
